SUMMARY

Computer Science Engineering undergraduate at SRM University AP (GPA: 7.89/10.0) with strong foundations in C/C++, Data Structures and Algorithms, and problem-solving. Experienced in building full-stack applications using the MERN stack, along with knowledge of MySQL and Linux fundamentals. Actively participated in hackathons and developed real-world projects. Seeking a Software Engineering Internship to apply my skills and contribute to impactful solutions.

PROJECTS

Exam Hall Seating Allocation System (MERN Stack)

Built a full-stack web application using the MERN stack to automate exam seating arrangements. The system manages students, exam schedules, and hall allocations, and includes a seating algorithm to distribute students efficiently. It also supports secure login and generates seating reports, making the process faster and less error-prone.

Blood Bank Storage Management System (MySQL + Full Stack)

Developed a web-based system to manage blood donors, track inventory, and handle blood requests. Designed the database using MySQL Workbench with proper relationships to ensure accurate data handling. The system updates stock in real time and makes it easy to check blood availability when needed.

EDUCATION

2024 – 2028	B.Tech in Computer Science Engineering, SRM University AP	(GPA: 7.89/10.0)
2022 – 2024	Class XII, AP State Board	(804)

SKILLS

Programming Languages: C, C++, Python, JavaScript

Web Technologies: HTML, CSS

Core Concepts: Data Structures and Algorithms, Linux Fundamentals

Tools: GitHub, VS Code

CERTIFICATIONS

- Earned a certification in AWS Job Simulation (Cloud Architecture), demonstrating hands-on experience in designing scalable, secure, and cost-effective cloud solutions. [\[link\]](#)

LEADERSHIP EXPERIENCE

Co-Head, Registration Committee – UDGAM (National-Level Fest)

Managed participant registrations and led coordination efforts, ensuring a smooth and organized registration process during the event.

Operations Member – Sports Council

Contributed to the planning and execution of sports events, ensuring smooth coordination and teamwork.

ACHIEVEMENTS & ACTIVITIES

- Participated in HackAura 2025 (Idea Submission Round), contributing to idea design and problem-solving [\[Link\]](#)
