SUMMARY

A Passionate Computer Science Undergraduate with a strong interest in Machine Learning, Web Application Development and Full- Stack Development. Eager to apply technical skills to innovative and continuously expand knowledge in cutting-edge technologies.

WORK EXPERIENCE

- Intern at EDUNET – AI/MLJune 2024 – August 2024
- Developed an ML-driven analytical model to predict employee burnout, enhancing workforce management strategies.
 - Engineered data pipelines and optimized regression models, improving predictive accuracy and operational insights.
 - Applied Supervised Learning algorithms such as Linear Regression, Decision Trees, and Random Forest to enhance predictive capabilities

PROJECTS

- Dine And Order Platform (HTML, CSS, JavaScript)
- Developed a responsive Dine and Order platform using HTML, CSS, and JavaScript, ensuring a seamless user experience across devices
 - Implemented an interactive user interface with dynamic content updates, enhancing usability and engagement. Focused on frontend design, optimizing navigation and layout for better accessibility and efficiency.
- Weather Detector (HTML, CSS, JavaScript)
- Built using JavaScript, HTML, and CSS, integrating the Open Weather Map API.
 - Provides real-time climate conditions for locations worldwide with a user-friendly interface.
- Banking System (C++)
- Designed and developed a C++ with OOPs principles, focusing on encapsulation and data abstraction.
 - Built a secure login page and enabled users to access transaction history and perform operations like buying, selling, and withdrawing funds.

EDUCATION

Oct 2022 - June 2026	B.Tech in Computer Science and Engineering at SRM University AP	(CGPA: 8.54/10.0)
August 2022	Intermediate at Tirumula college, Rajamundry	(Percent %: 97.8/100)
March 2020	Class 10th at Bharatiya vidya bhavan’s, Tadepalligudem	(Percent %:90.8/100)

SKILLS

Programming Languages: C, C++, Java, MySQL
Frontend Technologies: HTML, CSS, JavaScript
Others: Data Structures and Algorithms, Operating Systems, OOPS, DBMS.
