Location: Andhra Pradesh, India

EDUCATION

SRM University, AP

2024 – 2028

B.Tech in Computer Science Engineering

CGPA: 7.5 / 10

PROJECTS

Hospital Management System (DBMS Project)

- Designed and developed a structured database system to manage patient records, doctor information, and appointment scheduling
- Applied normalization techniques (1NF, 2NF, 3NF) to reduce redundancy and improve data integrity
- Created ER diagrams and relational schemas for efficient and scalable database design

MongoDB CRUD Application

- Developed a web application using Node.js, Express.js, and MongoDB
- Implemented RESTful APIs to perform Create, Read, Update, and Delete (CRUD) operations
- Strengthened understanding of NoSQL database architecture and backend development

ScamShield — AI Safety App (Startup Idea)

- Conceptualized an AI-based application focused on scam detection and traveler safety
- Designed features such as real-time alerts, fair price verification, and SOS emergency support
- Focused on solving real-world safety challenges through innovative technology solutions

SKILLS

Programming Languages: C, C++, Python

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL, MongoDB

Tools: Git, VS Code

Core Concepts: DBMS, Data Structures, Operating Systems

ACHIEVEMENTS / CERTIFICATIONS

- Completed coursework in MongoDB and Node.js
- Participated in technical workshops and hackathons

INTERESTS

- Data Analytics and Insights
- Building Real-World Software Projects
- Technology Trends and Innovation
- Startup Ideas and Entrepreneurship
- Continuous Learning and Skill Development
