

JAI RAM MADDUKURI

+91 7013801473 | Vijayawada, India
maddukurrijairam@gmail.com | LinkedIn | GitHub | LeetCode | CodeChef

SUMMARY

Aspiring Software Development Engineer with a strong foundation in Data Structures & Algorithms and hands-on experience in full-stack web development (MERN stack). Skilled in building scalable web applications, RESTful APIs, and implementing user authentication and CRUD operations. Passionate about writing clean, efficient code and developing user-focused, high-performance applications.

EDUCATION

SRM Institute of Science and Technology – *B.Tech Computer Science Engineering*
Andhra Pradesh, India Jul 2024 – May 2028(Expected)

- Currently in 2nd Year
 - Cumulative GPA: 8.47/10 (up to 3rd semester)
-

PROJECTS

Student Record Management System – C|File I/O

- Built a role-based student record management system in C supporting Admin, Staff, and Guest access levels.
- Implemented features to view, add, update, search, and delete student records stored in a text file.
- Designed secure login with role-specific menus and input validation for data integrity

Iris Flower Statistical Analysis – Python|Pandas

- Analyzed the Iris dataset using Python and Pandas for statistical exploration, including data cleaning and outlier detection.
- Engineered new features such as petal area and ratios, and applied functional programming techniques (filter, map, reduce) for efficient processing.
- Automated the generation of a comprehensive analysis report, incorporating data transformation and basic encoding methods.

CityExplorer – MERN Stack

- Developed a full-stack city discovery platform using MongoDB, Express.js, React, and Node.js
 - Implemented RESTful APIs, CRUD operations, and user authentication for dynamic data handling
 - Designed responsive UI for improved user experience across devices
-

SKILLS

Programming Languages – C, C++, Python, JavaScript

Frontend & Backend – React.js, HTML, CSS, Node.js, Express.js, REST APIs

Data Structures & Algorithms – DSA with C/C++ and Python

Databases – MongoDB, MySQL

Tools & Platforms – Git, GitHub, VS Code

Competitive Programming – LeetCode (jairamm007), CodeChef (jairamm007)

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- Solved 200+ Data Structures & Algorithms problems on LeetCode and CodeChef
- Strong problem-solving skills in arrays, strings, recursion, and trees
- Regularly practice coding problems to improve algorithmic thinking and efficiency
- Applied optimized approaches including time and space complexity improvements in problem solving
